

Participants of MIPE2022:

If you fall into any of the following (1) through (8), please do not come to the conference venue and participate online.

At the conference venue, please make sure to wear a non-woven mask, disinfect your fingers, and take your temperature at the entrance of the venue.

Confirmation items

- (1) Slight fever (higher than usual body temperature)
- (2) Symptoms of cold such as cough, sore throat, etc.
- (3) Sluggishness (fatigue), breathlessness (dyspnea)
- (4) Abnormal sense of smell or taste
- (5) Symptoms such as a feeling of heaviness and tiredness as seen in COVID-19 infection
- (6) Concentrated contact with a person who tested positive for COVID-19 infection (*)
- (7) Currently living with a family member or close acquaintance who is suspected to be infected
- (8) Traveling to a country or region where the government has imposed restrictions on entry or required a period of observation after entry within the past 14 days, or having concentrated contact with a person residing in such a country or region (*)

* “Concentrated contact” is a close or prolonged contact with a person who has been confirmed to be infected with the COVID-19, and has the relatively high possibility of infection. The “concentrated contact” is defined to have been in close contact for more than 15 minutes without wearing a mask at a distance of about 1 meter.

Thank you for understanding and cooperation for safe conference.
